

£220,000

The amount Angus Health and Social Care Partnership spent last year on prescribing
paracetamol

You could buy this from your local pharmacy or supermarket for around 30p

We need your support to improve local health and social care services now and in the future.

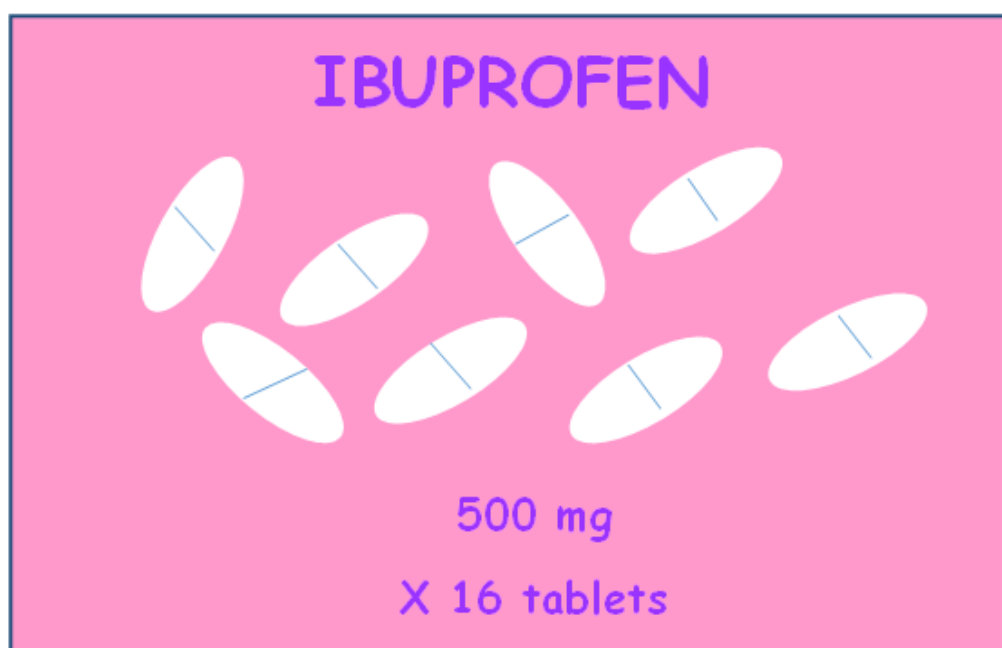

Please do not ask for a prescription* for paracetamol for minor or short-term medical problems.

*People with chronic/long term conditions who use painkillers on a regular basis should continue to receive these medicines on prescription.
